

1. Print the pencil toppers on regular paper or cardstock. Fold the first page in half along the dashed line. Unfold the page and place it on a flat surface, printed side down. You should be able to see the pencil topper outlines through the paper. Spread glue over the toppers on one half of the page, then fold the page down to secure. After the glue dries, cut out the pencil toppers.

2. Cut slits in the pencil topper where indicated.

3. Tightly wrap the bottom white strip of the topper around the top of a pencil or pen. Hold it firmly, and use tape to secure. To keep the topper from sliding down, wrap a piece of tape around the pencil or pen just under the topper.
